RE: COMPLETION OF THE UNIFORM HAZARDOUS WASTE MANIFEST

To Our Valued Customers:

The purpose of this letter is to clarify and provide additional guidance to our customers for completing their Uniform Hazardous Waste Manifest(s). As you know, Chemical Processors, Inc. recently changed its legal name to Burlington Environmental, Inc.

It should be noted that the change of our name to Burlington Environmental will not affect or include our transportation subsidiary, Resource Recovery. Therefore, although Resource Recovery may, in the future, also change its name to Burlington Environmental, at this time it continues to retain the name "Resource Recovery Corporation". Consequently, we are requesting that our customers continue to write "Resource Recovery Corporation" in the appropriate space on the manifest which calls for the designation of a "transporter".

We thank you for your help in this and will do anything we can to make your business with us easier.

Sincerely,

Hal Williams  
Treatment Group  
Burlington Environmental, Inc.
